HOW TO IRON ON YOUR PATCHES

- Pre-heat iron to "cotton" setting. Please make sure the steam is "turned off".
- Place custom iron-on patch on garment and cover patch with a fine piece of cloth.
- Press iron on patch for 25 seconds with constant, firm pressure.
- Do not use a "back and forth" motion as it will compromise the patch's placement and heat seal's ability to adhere.
- Allow item to cool for at least 5 hours prior to using.
